

The application has been submitted to Wealden District Council's planning department

The application relates to a technical question on whether an environment impact assessment is required for a full or outline planning application. At this stage there are no consultees for the application, however once it moves onto becoming a full or outline application the Parish Council will be consulted and we will at that time welcome input from residents on the application. The list of planning applications for an upcoming Planning and Highways committee meeting are advertised in our office window and on our website www.hwpc.org.uk.
